

VICTORY SOLUTIONS
TECHNOLOGY EMPOWERING THE RIGHT

Your call center in a box.

Victory VoIP (Voice Over Internet Protocol) is the most effective and efficient on-premise volunteer phone bank technology available. This all-inclusive and simple to use technology will increase call output, help you reach your voter contact goals faster and with fewer volunteers and collect more data than ever before. It features a completely customizable script input and an easy to use back-end for campaign control and data access.

Affordable for local elections, powerful enough for a Presidential.

Victory VoIP is a scalable call center for all size campaigns. We even offer travel unit that can be used in multiple locations. You can even run multiple campaigns from the same phone bank location. Unlike other traditional phone banks, all you need to get started is a high-speed internet connection (DSL, Cable, or T1), electricity, and volunteers.

- Easy use for volunteers – can be set up and calling in 15 minutes, is user friendly, customizable, allows you to add volunteers in minutes, upload easy-to-use scripts and see results real-time.
- No need for bubble sheets – information is input directly on high-contrast, easy-to read phone screens.
- Prerecorded voicemail messages - messages can be delivered by the candidate, surrogate, or supporter and left with the touch of a button while the next call is being placed.
- Database compatibility - plugs into all standard data sources including, but not limited to the RNC databases , proprietary systems, and Secretary of State databases. Polling, Voter ID, and Robocalls Victory VoIP automated polling uses proven, affordable technology.

VICTORY VOIP

At Victory Solutions, our motto is Technology Empowering the Right. This is more than a tag-line—it is our guiding mission. Dedicated to the development of campaign technology, our goals are to help elect conservatives to public office and enable conservative political professionals to grow their businesses and win elections.

DID YOU KNOW?

- **Victory VoIP averages 78 calls per volunteer hour for voter ID calls**
- **Can effectively run 200 phones per headquarters unit.**
- **Candidate edition unit with five phones weighs only 32 pounds.**
